CLUB PROGRAMMES

APPROACH OF AUTUMN AROUSES IN-

TEREST IN THESE AFFAIRS.

A Wide Variety of Topics-War Subjects to Be Considered-The Local Council.

The club members who have not been preparing through the summer months papers for the coming season have been few. Programmes below which have been of subjects. One club has made "War" its subject, and another has reviewed the Spanish-American war. Several clubs have taken classical authors to study, and others only the modern writers. One clubs will take a popular novel for its study for nearly the entire season. Many of the clubs have no particular theme and the members who read papers are allowed to select their own topics. There is little opportunity for discussion noted on the programmes, but in most of the clubs there are certain papers or conversations which give opportunity for drawing out individual thought in the several directions. The club programmes in themselves are worthy of study and courses of reading might readily be decided by the nonclub men or women, who, as a usual thing, read in "hit-andmiss" fashion. There are still other clubs to hear from, but owing to absence from the city of the summer tourists the final reports are not all in. The club member still keeps to the front in current events. The season programmes:

Electro-Vacuum Treatment Means

Tothe Nervous and Circulatory System

In fact, it is a compound element which works and acts closely like the mysterious vital power, which enables us to move and accomplish our many daily tasks, that the two may be said to be identical. VITALITY, as everyone knows, may be drained from the system by indulgences which occur at various times, usually during the period of youth when man is charged to his fullest capacity with the animal electricity of life. And, once lost, there is no possible way of restoring it, except through a medium of a similar electric current. DRUGS ALONE WILL NOT RESTORE LOST VITALITY, because it is impossible for them to penetrate to the nerve and motor centers of the human system. At best they simply act as an irritant, which clogs the various organs ... n its immediate effect has passed. THEREFORE, let me ad-

May 25 (Saturday)-Election of officers. A Toast.

A health to the poets of the page I quaff: Springing erect, my goblet lifted high; Long may ye live and bravely may ye die. O bards who help me weep and help me laugh! Not from savannahs of the South am I, But children of the Muse are brothers all, And speak one language. Easy, then, to call "Ho! mark my trail!" for those who fall or fly. My home-hill lifts its crest, so bright, so tall, Belted and crowned with hollshocks and pines, Haloed in mist and garlanded with vines. song and metre-loving Hoosier Saul, And hails each David-state that gifts the To whom be joy, renown and golden age!
